

Peer feedback form for presentations

Additive number theory seminar

Take notes as you listen to each presentation. Complete one form for each presentation, and hand in your feedback to the instructor at the end of class. **Write your name on your form**—your form will be marked for completion, and your feedback will be passed along to the presenters **anonymously**. (Note that the form has two sides.)

Your name :

The presenter's name(s) :

What did the presenter(s) do well? Write at least one thing, and up to three. Be as specific as you can: e.g. "everything was great" or "nothing" are not very useful feedback.

What could the presenter do better next time? Write at least one thing, and up to three. Again, be as specific as you can.

Write at least one takeaway from the presentation.

If you have any general comments or notes which do not fit under the above headings, put them here.
